

Eden

IP65 compact bulkhead with fresnel lens for improved light distribution with an led option

Eden is an attractive weatherproof IP65 luminaire available in both Non-Maintained and Maintained emergency modes. It can be supplied with an 8W T5 fluorescent lamp or alternatively using LED's with a life of approximately 50,000 hours.

The Eden body is manufactured in white flame retardant polycarbonate.

Eden's polycarbonate diffuser incorporates a Fresnel lens, ensuring excellent light distribution.

To aid rapid installation, Eden is fitted with a hinged geartray and has side and rear entry points moulded into the base.

Eden is available with a number of options including semi-recessing kits and self-adhesive exit legends.

Eden with white semi-recessing trim

SAL1 provides several exit legend options.
