

# Pescara-G

## Large exit sign with a 90 metre viewing distance

To compliment our Pescara range, we have introduced a large exit sign Pescara-G for applications where greater viewing distances are required.

The Pescara-G is available in single and double sided versions and incorporate many of the features of the Pescara range.

The 'U' channel geartray ensures even illumination in both single and double sided versions and the double downlight panel illuminates directly below the sign to the escape route and door threshold.

Available in white as standard and non-maintained and maintained emergency modes, the Pescara-G is ideal for supermarkets, car parks and warehouses.
